

## How to Access the FOSS Teacher Guides

1. Log on to [FOSSweb.com](https://FOSSweb.com) or create an account if you have not done so already.
2. When you login to your teacher page you will see the tabs below.

3. Click the yellow tab that says **Activate a New Module**.

*Note: If you scroll through the menu of teacher guides you may not find the 1st edition guides.*

4. Enter the code for the guide you would like access. Click **Submit**.

### Step 1: Enter Access Codes for Module Activation

Enter any access codes you have in the spaces provided below. You can add more fields, if you need them. Please note that FOSSweb access codes are composed of ten letters or numbers and that capitalization matters.

**Enter Access Codes**

Enter Access Code

Enter Access Code

Enter Access Code

Enter Access Code

+ You can add additional fields by clicking the plus...

**Submit** **Cancel**

5. Make sure all boxes are checked. Click **Submit** again.

### Select Which Modules Appear in My FOSS Modules

The My FOSS Modules area provides a space where you can keep your most frequently used modules for easy access. The list below contains all the modules you have activated. Selected modules will appear in your My FOSS Modules area. Unselected modules will remain accessible in the Available FOSS Modules area near the bottom of your Teacher Home page.

**Select Module(s)**

Select All Modules

Populations and Ecosystems (1st Ed.)

**Submit** **Cancel**

**\*ACCESS CODES\*** You can find the codes on [ASPEN/SIS](#). First, add the **Science Page** to your side toolbar. Click the **Science Page** then Look for the resources box. There is a document titled **FOSS Instructions** and on pg. 11 are all the codes to access the teachers guides.
