

# Maurice J. Tobin K-8 School

## SY'2017-2018

### Bulletin Board Plan:

The bulletin boards at our school are tools that help us present students with models of our expectations, feedback on their current performance, and a visual for how what they are learning about in their classrooms fit into what we are learning throughout the building as a community. In pursuit of these three items we have set up a timeline for updating our bulletin boards that will help us in presenting as a unified learning community that acknowledges when students are meeting our expectations while at the same time providing those who are not with models of what student work looks like when it meets our expectations.

<b>Month/deadline</b>	<b>Expectations for What Goes on Bulletin Boards</b>
1. Update by September 7, 2017	1) Student work that meets expectations and is connected to the standards being worked on in the class
2. Update by end of the week of Oct. 23, 2017
