Progress Toward Proficiency Gap Narrowing SY2010-11 (Baseline) to SY2016-17 (6-Year Goal)

Network: **D** School Code: **4570**

The MA accountability system measures each school's progress toward the goal of reducing proficiency gaps by half between the 2010-11 and 2016-17 school year. To facilitate your planning and monitor progress toward meeting the gap-narrowing targets, this report shows your school's fixed yearly proficiency gap-narrowing targets, the 6-year goal and the actual CPI performance for each of the 12 student groups. Please note that while the average CPI is reported here for groups with 10 or more students, the MA accountability report only includes data for 30 or more students for subgroups, and 20 or more students in the aggregate.

	Actual CPI/N	61.4	11	63.6	11	-	6							

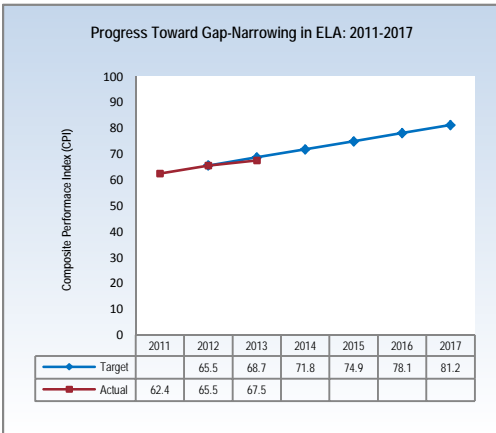

Note: 2011 is the baseline for a majority of student groups. For a few groups that did not meet group size requirements in 2011, DESE used 2010 as baseline if it met the group size requirements in 2010. In this case, 2010 data replaced 2011 data and is placed in 2011/Baseline column.

In addition, DESE used 2012 as baseline if the group did not meet group size requirements in 2010 and in 2011, but it met group size requirement in 2012. In this case, only targets for 2013, 2014 and the 6-year goal are shown.

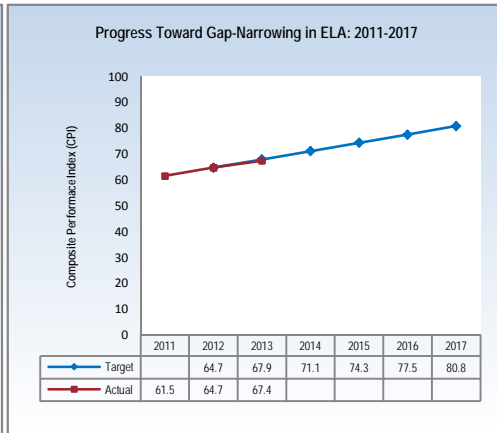

The MA accountability system measures each school's progress toward the goal of reducing proficiency gaps by half between the 2010-11 and 2016-17 school year. To facilitate your planning and monitor progress toward meeting the gap-narrowing targets, this report shows your school's fixed yearly proficiency gap-narrowing targets, the 6-year goal and the actual CPI performance for each of the 12 student groups.
